Mr. Edward Collins
Director
Mary Curie Physical and Mental Health Rehabilitation Center

Re: Mr. Peter Berry, 30 years old
Dear Mr. Collins,

I am writing to ~~refer~~ Mr. Peter Berry, who has been admitted in our our hospital for six months with head trauma following a road traffic accident, for your kind care.

Regarding his history, Mr. Berry is a single accountant who smokes nine cigarettes per day and consumes alcohol moderately. ~~It's~~ worth mentioning that he has acquired over speeding fines frequently. Please note, his mother Mrs. Amelia Andy is his next of kin.

Initially, on 26/06/2021, Mr. Berry was brought to the emergency after the accident where a trauma survey including CT head and full body scan was done. Results of the scans showed subdural hematoma and fracture in the right femur. Two days later, he underwent two operations to relieve the hematoma and repair the fractured femur. Although he was vitally stable, he ~~didn't~~ wake up after the surgery. **He was managed conservatively in the ICU.**

~~On 01/07/2021, Mr. Berry was still non responsive but with stable vitals. He was commenced on IV mannitol, fluids and antibiotics, with supportive care in the ICU. On 07/09/2021, he regained consciousness; however, he had difficulty speaking and was confused with a GCS nine. One month later on 11/10/2021, although his GCS improved to thirteen, he still had difficulty in speech and mobility: therefore; therapy and rehabilitation for both were started.~~

Today, Mr. Berry is suffering from social withdrawal, low mood and suicidal thoughts. Although his speech improved, he ~~can't~~ move without a wheelchair. ~~As a result, his mother Mrs. Andy requested transfer to a mental health and rehab facility.~~

**(The patient's social history can be written here.)*

Based on the above **and his mother's request**, Mr. Berry needs help regarding speech and mobility, in addition to psychiatric assessment for depression. Counseling for his smoking, alcohol **consumption** and frequent speeding while driving **would be much appreciated**. **Additionally, kindly continue his speech therapy and physical rehabilitation at your facility.**

In case of any queries, please do not hesitate to contact me.

Yours sincerely,
Doctor.

- Commented [ESL14]: and counseling
- Commented [ESL15]: *(Add a polite closing line.)*

Report	
Word Length	281
Comments	The purpose is stated and developed sufficiently in the letter. The letter tries to include relevant case notes, but it includes irrelevant information/details also, and the word count exceeds the desired limit. An attempt to organize the content logically is seen, but order of information and paragraphing need improvement in places. There is no closing sentence. The style is less formal in places. Inaccuracies related to language are minimal, but some information can be presented in a better way. Overall, the letter needs improvement.
Estimated Grade	C+
Estimated Score	330/500
Advice	1. Always read and select case notes carefully. 2. Maintain formal style in the letter. 3. Avoid basic grammar errors.

	4. Improve choice of words and formation of sentences. 5. Improve coherence/paragraphing. 6. Try to finish the letter in 200 words by writing information in brief wherever possible. Watch this video on word length: https://www.youtube.com/watch?v=AyalEjPv6Ag 7. Include a polite closing sentence at the end. 8. Always proofread the letter after finishing it.
